PRESENTED BY

Recap of Robotics 1/22-29/23

Students started to build swerve/tank drive chassis and the mechanisms for picking up game pieces

Teams made more improvements to their mechanisms for picking up and placing the game pieces. A lot of progress has been made so far!

On Saturday, we made decisions regarding which designs and techniques we wanted to prioritize and which ideas should be put on the back-burner.

Sub-section of the build team testing a wooden mock-up prototype.

Pit Design

(2018)

Locker Decorations

Students putting up vinyl locker decals and season-specific locker decorations on team members lockers.

(2022)

The locker decals and decorations are a great way to show off to the rest of the student body and staff that robotics is going strong! The vinyl decals stay up for team members' whole high school career, and paper decorations stay up for the season!

Its about that time of the year again to start designing the pit for the robot! After gathering ideas from our whole team, working together, presenting, and combining ideas, we've drafted our first idea for our 2023 season pit.

Code Team

The code team has been making sure that our drive system is up and running smoothly! Getting the code for the robot set up sooner rather than later is essential.

Sponsor of the Week

GENERAC[®]

Thank you, Generac for supporting our team!

Important Dates

Feb 18 - FLL Expo

Feb 19 - Sussex Scrimmage

Feb 25 - Team Photo Day 12PM &
Mandatory Travel Meeting 3PM

Mar 8-11 - St Louis Regional

Mar 22-25 - WI Regional

Sponsor Benefits

Planning on becoming a sponsor or renewing your sponsorship? Know someone who may be interested? Check out our sponsorship benefits! For any questions or inquiries please email 1259paradigmshift@gmail.com. We appreciate your interest and support!
